+91 7675024181

Summary

Experienced Full Stack Developer with expert skills in HTML, CSS, JavaScript, React JS, MongoDB, and various frameworks who is eager to transition into a senior full-stack developer role. Excited to leverage my deep expertise in development and data management to create scalable, data-driven applications for your organization.

Experience

Infosys Limited
Senior Systems Engineer, Bangalore

07/2021 - Present
- Built a CRM from scratch, migrated an old tool to monitor leads from different sources and moved it to HubSpot.
- Created custom dashboards to monitor the payloads from multiple
- origins. Enabled scale by containerization of 5 services to Azure.
- Currently working on a full stack project using React, Angular, MongoDB, AWS, Kubernetes, Java and Spring Boot.

Vegga Appsol
Associate Software Engineer, Hyderabad

05/2020 - 06/2021
- Designed and developed a digital marketing mobile application which enables users to interact with Ads from multiple clients and earn game points.
- Acted as liaison between clients and our organization for successful on-boarding into our application.
- I collaborated with couple of other developers to build a mobile application like Rapido for a Singapore based startup.

SenSen Networks
SDE-Intern, Hyderabad

01/2020 - 05/2020
- Interned for a project to work on retrieving metadata from smartphone sensors like Accelerometer, Gyroscope, camera to check for anomalies like potholes on road using EXIF libraries.

Education

B. Tech, Computer Science and Engineering
CVR College of Engineering, Hyderabad.

Social
